

This is a **review** for Exam III. This work is for your own practice—it is **not** to be turned in for a grade. Most of these problem are either solved in the textbook or have answers in BOB (back of book). But if you have questions, please let me know. The tutors in the LC can help you out with these problems as well. Additionally, please use in class work from Weeks I, II, and III for your review.
